Chelsey Van Ness 21 digs

Blocks: Megan Scherff 1 solo and 2 assisted blocks
Maddie Starman 1 solo and 1 assisted blocks

Comments:

Our first match of the day was against Missouri Valley which we lost 13-21, but then we turned the game around and won the second and third sets. In the second set, Chelsey Van Ness had two serving runs to help maintain the lead. Then in the third set Taylor Lickteig had two serving runs to also help earn the match.

Then we played Lewis Central who played with a lot of momentum. Then in game two, we started serving more aggressively which took them out of their rhythm. We capitalized and used Megan Russell's serving to have the lead throughout most of the game and be at game point 20-18. We were unable to close the deal and struggled getting the final point against their first serving rotation.

The last pool play match was against Kuemper. They had struggled earlier in the day, but they definitely were ready to play us with two strong games.

Bracket play matched us up against Council Bluff Thomas Jefferson. We beat them in game one with a balanced attack from all rotations. They came back to win games two and three.

We are struggling to finish games. We have put ourselves in some good positions, and we are finishing games with our strongest rotations in place.

Megan Scheff continues to play well in the front row. Our serving has improved and is scoring us some points.

I'm hopeful that we are gaining experience from these close games and will build from them. We have three home conference matches coming up, and we are looking forward to returning to our home court.

Lewis Central defeated St. Alberts to win the tournament.
