Comments by Coach Eller: "Harlan played very sound, fundamental defense. They do a good job of overplaying our strong hand and play help defense on dribble penetration. We were very ineffective on offense the entire game. We weren't able to consistently beat any of their guys off the dribble as we didn't attack with our weak hand drive they were giving us. We weren't able to get to the free throw line as we didn't attack and draw any contact. We didn't knock down any of the open outside shots that we had when a teammate did create a shot for us. We weren't able to get the ball into the post very often. Everybody on the team needs to improve his ball handling for any of those things to be able to happen. Tonight, we didn't have anybody on the team with a scorer's mentality or confidence in his shot. Defensively, too many possessions we didn't talk and got beat on several screens and slips, especially on their out of bounds plays. We need to talk more and do a better job of taking away those easy shots inside. We continue to foul way too much and put them on the line for 23 free throw attempts. We need to cut down on our reaching in and getting up in the air on pump fakes".
