Comments- Tonight we took on one of the best teams in 3A this year, and I felt like our guys executed our game plan on both ends to perfection. Give Harlan credit as each time we stretched it out to double digits they fought right back. But I am even more proud of our guys for continuing to take their best punch and stand toe to toe right there with them. We got out to a great start this game and it was good to see some shots go in and we know we have really good shooters. Additionally I thought we did a great job of attacking the paint all night and made Harlan guard us all over the court and got them into some foul trouble. We did a really good job defending Frame and Birch. Hall got going a bit, but they are too tough to try and take away all of their threats. I think we got them out of rhythm and were able to make them take some tough shots. Really proud of our guys to continue to work and grind after a couple of tough losses the last couple of weeks.
