

Pre Season Information Boys Basketball - 23-24

Returning Starters:

Jake Fink

Luke Wiebers

Lance Arkfeld

Season Strengths:

We have 3 starters, two of them (Luke & Lance) all conference players returning after a very successful season last year. We will rely on their experience to help get our senior laden team off to a strong start this year. Additionally we have 7 seniors who we anticipate will all play major roles on our team this year. Being an experienced and older team hopes to give us the upper hand in most of our matchups, especially early in the year.

Season Areas of Concern:

With any new team we will need to define our roles and need some players to take on bigger roles than from years past. Additionally we will need to develop depth for our team coming from our junior and sophomores classes, and anytime you make a jump in levels in basketball there is a learning curve. So how quickly we can get those underclassmen up to speed will impact our success this season.
