Comments

We had a long night, but the boys competed well. We had a lot of downtime and to gear up and compete. We were able to get times in some relays we had not been able to run yet. We have to clean up handoffs and we are trying to figure out where everyone fits with relays. Our open events ran really well with some PR's. Leo Sanchez broke the 5:00 Mark on the night with a really fun race in the mile. Our Distance Medlay team dropped their PR time. We will continue to work on handoffs and cleaning up our starts and relays.
