Offsides	3			

Tri-Center is a very good team. They came into tonight's game with an 11-2 record. We switched more defensively to try and control the tempo of the game. The strategy worked for a little while game of momentum. It is very easy to lose control of a game when we get down on ourselves. They clustered. They scored in 5, 10, 12 and 14 minutes in the first half. We have to get better at not let happen. I felt like we were able to control the ball and move up the field at times. I also felt like job of switching and helping their teammates. The cluster goals were the same issue in the second happen against a good team. This was definitely a setback for us. However, we can learn from this tomorrow and look at the times in which Tri-Center scored and talked about perseverance and and overcome that in a soccer game. We still have 1 week before regional tournament play. I know to learn and take new knowledge of how to control the game into the last regular season game against round regional game against Harlan.
