Comments from the Monarch coaching staff:			

First night of competition, we were able to see some good things as far as technique and toughness. We now know things to improve on whether that be some of our conditioning and/or having a plan as we step on the mat. Gracen Plagge was able to exit the night 2-0 as we thought in her one match that she knew what she wanted to do and executed well. Our other senior Giana Garcia was able to bounce back after a tough match against a state qualifier and get her first win of the season. We had freshmen get their first taste of the varsity level, some get their first win, and remain optimistic about their development. The main message of tonight was that this is simply a starting point for us and that we will be able to gain from both good and bad of the night. We are ready to get back into the room to improve as a team before heading into our first tournament of the season in West Monona on Saturday.
