Comments:

The Monarch JV team fell to Harlan by the score of 13-3. We gave up four in the bottom of the first, but battled back with three runs of our own in the second inning. We settled in for a couple innings and kept the score close before giving up seven runs in the final two frames.

Wyatt Randeris started on the mound and righted the ship after that first inning. Gavin Hipnar provided an inning of relief.

The game obviously didn't go the way we wanted, but you're going to have those days in baseball. We showed glimpses of our offense in the second, we just need to find a way to regularly get a spark and keep it going. Our pitching staff as a whole has to keep working on hitting out spots and throwing strikes. Our defense has to regularly make plays behind our pitchers. Positivity in one phase of the game needs to carry over to other areas.

We still have three games this week as we are in action Thursday, Friday, and Saturday and will look to improve in those outings.
