Comments from head coach Nick Bradley :

The Atlantic tournament has always been a tough tournament, but this year it was even tougher!! 19 teams and a ton of ranked wrestlers who have qualified for the state tournament before. This is a great tournament for us to be in so that our guys get an understanding of where they are against great competition that is looking to make the state tournament in a month. Our boys handled themselves well today. We continue to learn and grow each time we step out on the mat. Last year we didn't have anyone place at this tournament. This year, we had 4 of the 10 guys place. This is a huge improvement for us. We also had a few guys just miss the cut for placing. We are making tremendous growth as a young group this year and are extremely proud of how hard the guys are working. We are young this year and we are going to be extremely competitive in the next few years. Our guys want to win and make the state tournament. We continue to talk about taking 4 or 5 guys and these guys have bought in and are working to make that happen. The boys will see action again next Thursday for their last home dual at DHS for this year.
